

VACANCY : Painter-Metalliser

About De Bruyn NV

De Bruyn Coating is a strongly growing and creative organisation that is active in protecting and providing colour to the products of our clients. Our clients are typically industrial companies working in construction, machine building, transport etc. Already over 37 years, we built a very good reputation in Belgium and abroad.

Working at De Bruyn means collaboration, accepting challenges, continuous learning, seizing opportunities, come up with solutions and continuously trying to do better and smarter. This you will do with the rest of the 20 people team..

At this moment we have a vacancy in our team for :

Painter-Metalliser (38h)

What is this job about ?

As painter metallizer you will apply the protective and decorative layers to the products of our clients. We have both manual and automated manufacturing lines. Our clients expect a large diversity in processes and techniques. This means we expect our painting metallizing team to be as broadly trained and interested as possible to handle this variety of client requests in an efficient way.

What are the responsibilities?

- Inform yourself thoroughly about what needs to be done with the products
- Apply layer of Zink using metallization equipment
- Apply powder coating using electrostatic equipment
- Apply liquid painting using conventional and electrostatic equipment
- Clean and maintain tools and machines on a daily basis
- Register all executed processes
- Prepare the paint, manage the residues and clean the equipment
- Use the appropriate protective measures

What do we offer you ?

- Balanced salary package in line with your experience and capabilities
- Trainings
- A nice team to work with
- Flexible hour scheme
- The right tools and working clothes

This role requires :

- A lot of desire to do this job both qualitatively and output wise
- Desire to learn via trainings and direct on the job feedback
- Willingness to contribute yourself to the improvements in the company

Are these your qualities ?

- Preferrably some experience but this is not a must
- Being accurate
- Good physical health
- Being able to work autonomously

Send quickly your resumé and cover letter to :

De Bruyn Coating, attention to Katrien Beerten, Nijverheidsstraat 32, 2390 Malle
